

## Monthly Minutes for C.A.R.S. Committee

August 9<sup>th</sup>, 2017

- Meeting called to order at 09:07 A.M.
- New member Scott Hayden from Palatine was present.
- Minutes from July not present so they were tabled to next month.
- Printing update:
  - o Removing # of shocks
- Repeat pt not working properly on IPAD at this time.
  - o Make sure your settings are set to work off line also
  - o Also try clearing your cache out
- Smart Phone “App” Connie wants communication with system members better was where it started:
  - o Jim D working on this:
  - o What we can put on it:
    - SOPS
    - Tips of the month
    - Cheat Sheets
    - Documentation guide
- On the medication list there is Vasopressin. We will look at list and see what else shouldn't be on there for our system.
- We want to expand the “Provider Impressions” list, but we are waiting to see what Patrick Sennett has come up with and we will review it soon.
- Vascular Access Power Tool was noted to have “Medication” added to it:

- This is how it use to be in the old field bridge, but it doesn't work properly in Elite
- You get an error code if your attempt was unsuccessful thus we choose not to us it in the past
- Patrick advised he had added this portion, was unaware we didn't want to us it because of the error potential, and advised he would remove it.
- We agreed not to add items like this without notification and training of the end users in the future.
- Situation Power Tool was shown ( this could be real time documentation ) this is for the future. Looks interesting.
- A "User Voice" was opened asking for "Auto Logoff" to come back.
  - Image Trend responded the following: [The auto log off setting is already available under the System Level > Configuration > Login & Passwords > "Session timeout interval"](#)
- I Pad is looking up in the signature screen:
  - A help desk ticket was created with Image Trend
  - You can try updating Chrome for the Stylus freezing up
- Update from the Image Trend Conference:
  - The Hospital Hub is being worked on, but still needs work
- If you have a new member to your department that was associated with another agency in our system and already had a log in for Elite don't create another profile for them just email Patrick or Markus and they will change the affiliation.
- Dual Sequential Defibrillation Power Tool being worked on
- There is a controlled drug log in the Demo Agency to look at

- Patrick advised right now there are 18 different statuses for the call ( In Progress, Reviewed, Billable, etc. ) would like to bring down to 5 or so. Markus to bring to the EMS Coordinators' Meeting and discuss this there.
- Patrick discussed the printing option of "Timeline":
  - o We don't feel we want to use it right now
  - o If we can look at it and let Patrick know what we feel it is missing as he likes it and might use it in his system
- Meeting Adjourned at 11:30
