  - o Twitter or Facebook
- Remind you members to log off when not using Elite
- An option for printing is called a “Timeline”:
  - o We looked at this and for now we don’t feel it is worth going to as the hospital has not had a problem with our current print outs.
- PBPI ran numbers on the “Refusal” verbage and which options members are choosing:
  - o The numbers suggested we need training and possibly reconfiguring of language / options.
  - o Upcoming training in October so we are going to try and clean this up and get approval to modify so we can train members in October.
- Hospital Hub discussed:
  - o It is available from Image Trend, but every hospital would have to buy it so we could just post the call and not have to print it.
- There has been an error code for “Unit Cancelled Time”:
  - o You need to go to “All Times” and then change or delete this time to get rid of the error code

- The calls automatically post when on line, but not off line. We can activate a message to remind them that they need to post still if off line and to post when logging off.

  - o Close the signature tab
