

BLS Scenario 1

Dispatch: 3/9/2013; 20:00; Motor Vehicle Accident. Enroute at 20:01.
Address: Main Street and Central Rd. Mt. Prospect, IL 60056
Arrival: 20:05 with patient contact at 20:06.
Incident #: BLS Training 1

Patient Name: John Doe 70 y/o (DOB 1/1/1943), 175 lbs.
Address: 123 Main, Hoffmann Estates, IL 60010
847-555-5150
History: Hypertension, Hypothyroidism.

Meds: Norvasc, Synthroid Allergies: PCN

Condition: Pt was a restrained driver of a vehicle that struck another vehicle, has moderate front end damage, and has front air bag deployment. Pt advised because of the snow the roads were slippery and he slid into the vehicle in front of him that was stopped at the stop sign. Pt is complaining of left shoulder pain where the seat belt was, 4/10 pain, but refusing transport for further evaluation. AMA was explained to pt, NWCH was contacted, authorized release (Log number T12452), pt signed release, and advised if any conditions changed to seek medical attention.

20:08 **Initial vitals:** GCS:15, BP: 140/92, P: 98R, R: 26R, labored. SpO2: 96% on room air. Sugar: 84, Pain 4/10

20:15 Units cleared scene
