Patient Resides in Service Area: Resident

Validity: 99

Form ID: 0907

Call Type/Location/Disposition

Call Type: Sick Person

Incident Number: TRAINING 1

Unit Disp.: 10/04/2023
10:00:00

Incident Address: 800 W Central Rd
Arlington Heights, IL 60005

Enroute: 10/04/2023
10:02:00

At Scene: 10/04/2023
10:07:00

At Patient: 10/04/2023
10:08:00

Disposition: Treat & Transport ALS by this unit

Depart: 10/04/2023
10:28:00

Arrive Dest.: 10/04/2023
10:37:00

Transfer of Care: 10/04/2023
10:42:00

Patient Condition

Complaint Type

Complaint

Duration

Chief (Primary)

"nauseous and vomiting"

2 Days

Primary Symptom: Nausea and vomiting

Barriers to Patient Care: None

Alcohol/Drug Use: No indicated drug/alcohol use

Date/Time of Symptom Onset: 10/02/2023 10:08:00

Provider Impression

Primary Impression: Severe sepsis with septic shock

Initial Patient Acuity: Critical / Red

Final Patient Acuity: Red - Emergent / Unstable

Narrative

Jack and Jill went up the hill to fetch a pail of water because Jack was septic and needed fluids. Jill failed, so Jack needed an

SEPSIS

10/04/2023 10:40 - Junge, Nichole

Patient Information**SEPSIS - Adult**

Question	Answer	Notes
$\text{EtCO}_2 \leq 30 \text{ mmHg}$	Yes	
Does the ADULT Patient meet any of the qSOFA criterion?	Acute AMS (GCS <15);RR = 22;SBP = 100	
Are there \geq	Criteria? →	
Warm Stage (6-24 hrs.)	? BP;? RR	

SEPTIC SHOCK - Adult

Question	Answer	Notes
Consider SHOCK if presenting with ANY of the following	$\text{EtCO}_2 = 25$;SBP < 90 mmHg (MAP 65)	
Cold Stage (ominous/late)	? HR & RR;AMS;SKIN: Mottled, Cold;Temp < 98.6 °F	

Destination Transfer Time: 10/04/2023 10:42:00**Patient Name:** Doe, Jack**Date Printed:** 10/17/2023 12:29**Incident #:** TRAINING 1

BEFAST +

10/04/2023 10:11 - Junge, Nichole

Balance

Question	Answer	Notes
Unsteady gait / bearing?	No	
Did the patient fall?	No	
Unsuccessful finger-to-nose touch exam?	No	
Unsuccessful rapid alternating movements exam?	No	
Tilting to one side noted	No	
Pt complains of vertigo (room spinning)	No	

Eyes

Question	Answer	Notes
(fixed deviation)?	No	
		This could represent a LARGE VESSEL OCCLUSION
Vision - BLURRED	No	
Double Vision (Diplopia)	No	
Loss of any field of vision	No	
Photophobia (Light Sensitivity)?	No	
Ptosis (Droopy Eyelid)?	No	

Face

Question	Answer	Notes
Smile Asymmetrical?	No	
Unable to Wrinkle Forehead?	No	
Face Resting Asymmetry Noted	No	

Arm

Question	Answer	Notes
Arm falls slowly / drifts	No	
Arm falls FLACCID or DROPS?	No	

Speech

Question	Answer	Notes
Ask patient to repeat a simple phrase (you can't teach an old dog new tricks)		
Is there _____ ? (Pt knows what he or she wants to say, yet has difficulty communicating it to others)	No	
This could represent a LARGE VESSEL OCCLUSION		
Is there _____ ? (Pt does not understand commands)	No	

Destination Transfer Time: 10/04/2023 10:42:00**Patient Name:** Doe, Jack**Date Printed:** 10/17/2023 12:29**Incident #:** TRAINING 1

This could represent a LARGE VESSEL OCCLUSION

Is there word substitution? (Pt exhibits verbal paraphasia) No

Pt exhibits dysarthria (difficult or unclear articulation of speech)? No

Question

Answer

Notes

() for pt. baseline w/o new S&S \leq 24 hrs. Time of S&S discovery: Earliest time pt. known to have new S&S

/

Question

Answer

Notes

Neglect = One sided extinction (visual, auditory, sensory) No

This could represent a LARGE VESSEL OCCLUSION

Agnosia = Inability to recognize an object (part of body) or person No

This could represent a LARGE VESSEL OCCLUSION
