

**Northwest Community EMS System
ECRN Field Practicum 2018**

Name:	Date:
Hospital:	EMS Agency:
Time in: Initials:	Time out: Initials:

Objectives: Upon completion, the provisional ECRN will

1. appreciate the role of EMTs and paramedics as integral participants in the emergency medical team.
2. explain the method by which EMS is dispatched and how a duty to care for patients is established.
3. describe the nature of an EMT's interactions with patient's, peers, law enforcement agencies, and hospital personnel.
4. identify the environmental and stress factors indigenous to prehospital care.
5. participate in at least one ALS run in which the nurse is able to observe access to a patient, initial assessment, ALS interventions, appropriate patient packaging, communication with a system hospital via radio/phone, safe transportation to a hospital, and transference of patient responsibility to hospital staff.
6. explain the legal and ethical principles which impact prehospital care.

Summary of Field Participation

Number ALS Runs: _____ **Number BLS Runs:** _____

Patient profiles	
Nature of Illness/Injury	Interventions:
