

Purpose

To assist Fire/EMS and Law Enforcement agencies in meeting their responsibilities for infection control under OSHA, CDC Guidelines, NFPA 1581 Bloodborne Pathogens Standard and the Ryan White Law.

Objectives

Following this course, the participant will be able to:

1. Develop an understanding of the principles and practices of infection control
2. Understand the disease process
3. Identify state, local, and federal laws that pertain to infection control and compliance
4. Assist in the development of a comprehensive infection control program
5. Identify proper post exposure medical management for each disease

Katherine West, BSN, MSEd, CIC

is a nationally recognized expert in the field of infection control. She has been a consultant to the CDC, NIH, and NIOSH. She has written national training materials for fire/rescue and law enforcement personnel, is widely published in emergency response publications, and is author of *the Infectious Disease Handbook for Emergency Care Personnel*, 3rd Ed.

James R. Cross, JD

is an attorney specializing in employment law and medication. He taught *EMS and the Law* for the EMS Degree Program at George Washington University and has been published in numerous publications.

BASIC DESIGNATED INFECTION CONTROL OFFICER

Lake Zurich Police
Department

8:30 a.m. - 4:30p.m.

200 Mohawk Trail
Lake Zurich

Designated/Infection Control Officer (Basic)

This two-day course is designed to prepare the infection control officer to fully meet the requirements of the position under NFPA 1581, OSHA 1919.1030, and the Ryan White Law. The Ryan White Law states that *each fire, EMS, or law enforcement agency must have a designated officer to manage exposure issues for the department*. Understanding this role and the many aspect of this job is important to assist with department risk management and department member advocacy.

The role and responsibilities along with a job description are presented along with step-by-step program formulation to enable the course participant to return to his/her workplace and set up a working program. A well-trained designated officer will be an effective advocate for both the member of the department as well as the administration.
