

Policy Title: **Abandoned (Relinquished) newborn protection**No. **A - 5**

Board approval: 3/9/23

Effective: 3/16/23

Supersedes: 1/1/10

**Synopsis:** The Abandoned Newborn Infant Protection Act offers a protected, legal alternative to unsafe infant abandonment. An unharmed newborn, up to 30 days old, may be handed to staff (a person, not a drop box) at a hospital, emergency medical care facility, police station, firehouse, college/University police station, or Illinois State Police district headquarters. No questions need to be answered and there is no fear of prosecution. For a full-text copy of the law go to:

## I. DEFINITIONS

- A. **Neonate:** means a child who a licensed physician reasonably believes is 30 days old or less at the time the child is initially relinquished to a hospital, police station, fire station, emergency medical facility, and who is not an abused or neglected child.
- B. **Relinquish:** means to bring a neonate, who a licensed physician reasonably believes is 30 days old or less to a hospital, police station, fire station, emergency medical facility, and to leave the infant with personnel of the facility, if the person leaving the infant does not express an intent to return for the infant or states that he or she will not return for the infant.
- C. **Emergency Medical Professional** includes licensed physicians, and any EMT, AEMT, EMT-I, Paramedic, TNS, and Prehospital registered nurse as defined in the EMS Systems Act.
- D. **Fire Station:** Means a fire station within the State with at least one staff person.

## II. POLICY

- A. The NWC EMSS will provide assessment, treatment, and transportation to the nearest hospital for relinquished infants according to the above named Act.
- B. The NWC EMSS will provide the necessary documents to the relinquishing parent as specified in the above named Act.

## III. PROCEDURE - INFANT CARE AND HOSPITAL CONTACT

- A. The relinquishing person is presumed to be the infant's biological parent.
- B. Assess the infant. Look particularly for any signs of abuse or neglect.
- C. Ask the relinquishing parent for the infant's name and date of birth.
- D. If the child is presumed to be more than 30 days old, or appears to have been abused or neglected, EMS personnel should proceed as if the child is abused or neglected. Follow the **Child Abuse SOP** and the **V2 Violence: Suspected child abuse and neglect** policy and file a report with the DCFS Central Registry.  
  
While this is all that is required under the Act, refusing to take an infant presumed to be older than 30 days or one who is abused or neglected from a parent who wishes to relinquish them could possibly result in harm to the infant. It is in the best interest of the child to accept them and proceed as below.
- E. Initiate EMS care that is necessary per SOP under implied consent and contact the nearest System hospital over the UHF radio/cellular or landline phone as soon as possible so a physician can take temporary protective custody of the infant.
- F. Ensure that the infant is kept warm and transport to the nearest System hospital with the infant secured appropriately in an infant car seat or pediatric restraining device.
- G. Complete a patient care report on the infant. List the infant's name as "Baby Girl/Boy Doe" if the given name is unknown.

- H. The System will honor the intent of the Act to allow for the **anonymity of the relinquishing parent**. However, nothing in the Act precludes a relinquishing person from providing their identity. **If the infant is presumed to be 30 days of age or younger and there is no evidence of abuse or neglect:**
1. Identify the infant as relinquished in the comments section of the patient care report but omit any descriptive information regarding the relinquishing individual;
  2. **The parent has the right to remain anonymous and to leave the fire station at any time and not be pursued or followed.** If abuse or neglect is later suspected, the hospital will report it. The parent will not be prosecuted for relinquishment unless the infant was abused or neglected; and
  3. Normal patient confidentiality will surround this process.

#### IV. **PROCEDURE: COMMUNICATION WITH THE RELINQUISHING PARENT**

- A. EMS personnel must offer the relinquishing parent the packet of information specified in the Act and if possible, **verbally inform the parent that:**
1. **Their acceptance of the information is completely voluntary;**
  2. Completion of the Illinois Adoption Registration form and Medical Information Exchange form is voluntary;
  3. A Denial of Information Exchange form may be completed which would allow the relinquishing parent to remain anonymous to the infant and other parties involved in the infant's subsequent adoption;
  4. The parent may provide medical information only and remain anonymous; and
  5. By relinquishing the infant anonymously, they will have to petition the court in order to prevent the termination of parental rights and regain custody of the child. This information shall be printed and included in the packet.
  6. If the parent returns within 72 hours to reclaim the infant, they should be told the name and location of the hospital to which the infant was transported.
- B. **The parent may be unwilling to participate in a discussion.** Document on the infant's PCR that the required information was offered to the parent and whether or not it was received. Note: These packets should be available in every fire station.
- C. **Inform the parent** that the fee for filing the application is waived if the medical questionnaire is completed.

- V. **IMMUNITY** (Section 27): A hospital, fire station, or emergency medical facility, and any personnel of a hospital, fire station, or emergency medical facility, are immune from criminal or civil liability for acting in good faith in accordance with the Act. Nothing in the Act limits liability for negligence for care and medical treatment.
- VI. **EVALUATION** (Section 65)
- A. IDPH shall collect and analyze information regarding the relinquishment of newborn infants and placement of children under the Act. Fire stations, emergency medical facilities, and medical professionals accepting and providing services to a newborn infant under the Act shall report to the Department data necessary for the Department to evaluate and determine the effect of this Act in the prevention of injury or death of newborn infants. Child-placing agencies shall report to the Department data necessary to evaluate and determine the effectiveness of these agencies in providing child protective and child welfare services to newborn infants relinquished under the Act.
- B. The information collected from Fire stations shall include, but need not be limited to: the number of newborn infants relinquished and the services provided to relinquished newborns.
