

**Northwest Community EMS System  
Research and Development Committee  
MINUTES July 10, 2019**

Topic	Discussion	Actions/Follow-Up
<b>Call To Order</b>	Meeting called to order at 11:08.	
<b>New Members</b>	N/A	
<b>Minutes &amp; Agenda</b>	Agenda was sent out prior to meeting.	No additions to agenda. Motion made to approve minutes by Doug S seconded by Scott. March minutes approved unanimously.
<b><u>Old Business</u></b> Hemostatic Agent-Wound Clot Water Jel Burn Kit Essential Oils Peds Mask Apneic Oxygenation	Dr. Jordan stated that this is not likely needed at the present time. Need more research and human studies to show how it actually cools a burn. Recommended for more in hospital use versus field usage. Being presented for July's CE with different options	Reminder: data and any research should accompany any product to come before the committee. Will not add at this time. Will continue to collect data on use before making further changes to procedure.
<b><u>New Business</u></b> J Wand-Presentation Glucometers	Rep not present. More of an in hospital tool versus a field tool Looking for a professional (multi-patient) use meter, not personal (single) use meter. Multi-patient units are FDA approved, single use are CLIA Waived. New glucometer will need to be: CLIA compliant, FDA approved, follow National recommendations, and will be piloted by various departments before it is "live" for the entire system.	Will not pursue at the present time.
<b>Closing/from the floor: information sharing</b>	Next meeting homework; Glucometers	
<b>Adjournment</b>	Next Meeting – 9/4/2019 Motion to adjourn: Benny Yee. Second: Doug Schuberth. All in favor. Motion granted. Meeting adjourned at 12:18. Minutes respectfully submitted by: Ed Rogers
