

NWC EMSS Non-Transport Vehicle (MedEngine) Inspections due 09-30-2025

Inspections are due at the end of September, to help facilitate it would be helpful to have the NT Inspections in to the System by Sept. 1st.

IDPH shall issue a Non-Transport license to qualified agencies that is valid for 4 years. Licenses are not issued for individual NT Vehicles.

Inspection of Non-transport EMS Providers: IDPH will schedule initial inspections.

Thereafter, the provider agency shall perform the annual **IDPH BLS self-inspections**, using forms supplied by IDPH on their website. **System ALS and ILS inspections** per policy shall be completed **every other year** by the assigned **Hospital EMSC/Educator**. They shall be completed on the alternate years by the EMS agency, **and shall submit the form to the EMS System for submission to IDPH** upon completion of the inspection. If needed, IDPH and the EMS System can perform inspections randomly or as the result of a complaint.

NT Provider licenses remain valid if, after annual inspection, all fee requirements are paid, and IDPH finds that the vehicle services provider is in full compliance with the Act and EMS Rules.

The IDPH PDF fillable **Non-Transport vehicle BLS self-inspection form** looks like this (screenshot below). Access the form directly from the IDPH EMS website [EMS Non-Transport Inspection Form Provider \(illinois.gov\)](https://www.idph.state.il.us/ems/forms/Non-Transport%20Inspection%20Form%20Provider%20(illinois.gov).pdf) or a copy is attached for your use.

- IDPH will not send a new license unless at the end of the 4-year cycle.
- Inspections and fee payments are still due annually.
- Renewal notices are sent to providers via e-mail unless an e-mail is not on file. If an e-mail is not on file, then the provider will receive a paper copy in the mail. Ensure that your provider's e-mails are current in GL Suites
- Transport providers can pay for vehicle fees online. This includes new vehicles, replacement vehicles, and renewals.

Form data entries - please note:

- **Provider Number for NT vehicles:** First 4 digits of your Provider Number **plus the letters NT**. Ex: 8300NT
- **EMS System:** 0907
- The form will be returned by IDPH if information is incomplete or incorrectly entered.

ADD the following to the State form:

Also, complete the **NWC EMS System Alternate Response Vehicle (MedEngine) Inspection form**.

Northwest Community EMS System – Supplemental to IDPH BLS form		Date of inspection:
ALTERNATE RESPONSE VEHICLE Inspection Form
